---

Jim:

The Falcon Refinery cleanup is being done by the PRP. If you would like, I can forward your email to the PRP.

Thanks

Gary,

My name is Jim Mraz and I am President and Owner of Capitol Environmental Services. We have provided removal actions to EPA Prime Contractors for the past 19 years. During that time, we have worked on hundreds of sites and always performed.

Capitol Environmental manages over 400 truckloads a week of contaminated materials. We perform these services in 35 states including Puerto Rico.

We would very much appreciate the opportunity to quote on any required removal services. Please let us know what we can do to have the prime contractor extend us that opportunity.

More can be found about Capitol Environmental by visiting our web site at: [www.capitol-environmental.com](http://www.capitol-environmental.com)

9566881

Regards,

James Mraz

President
